## PROFESSIONAL SUMMARY

IT Application professional with hands-on experience developing and customizing SuiteScripts (User Event, Scheduled, Client, and RESTlet) to automate business processes in NetSuite. Skilled in Java, Spring Boot, and Spring Security, with a strong foundation in data structures and a proven track record of solving 600+ problems across LeetCode and GeeksforGeeks. Seeking to leverage backend development and process automation skills in a challenging software engineering role.

## EXPERIENCE

### Jr. IT Application Intern — Arista Networks

*Aug 2025 – Present*

- Developed and customized SuiteScripts (User Event, Scheduled, Client, and RESTlet) to automate business processes such as Purchase Order validation, customer updates, and approval flows.
- Built custom records, automated workflows, and optimized saved searches to enhance ERP (NetSuite) efficiency.
- Collaborated with cross-functional teams to analyze business requirements and implement technical solutions in NetSuite.
- Debugged and resolved script and deployment errors, improving script stability and execution performance.

## PROJECTS

### RapidGrow — Java Backend Project ([Visit](#))

- Designed a Java backend platform connecting blue-collar workers (electricians, plumbers, drivers, carpenters, etc.) with customers needing services.
- Enabled customers to post job requirements and allowed workers to bid on posted jobs, with customer selection among bids.
- Developed multiple REST APIs using Spring Boot and MySQL to support core application functionality.

### Monsters Rolodex — React Project ([Visit](#))

- Built a searchable rolodex of monster characters in React to practice component architecture and state management.
- Implemented a live search box that filters the list in real time as the user types.

### Password Generator — Personal Project ([Visit](#))

- Built a web-based password generator using HTML, CSS, and JavaScript.
- Implemented user controls for including uppercase letters, lowercase letters, numbers, and symbols, plus adjustable password length.

## SKILLS

|                 |                                                   |
|-----------------|---------------------------------------------------|
| Languages       | Java, MySQL                                       |
| Core Concepts   | Data Structures & Algorithms, API, JPA, Hibernate |
| Frameworks      | Spring Boot, Spring Security                      |
| Developer Tools | VS Code, Postman, Git/GitHub, IntelliJ IDEA       |

## EDUCATION

### B.Tech, Information Technology 2021 – 2025

*G.L. Bajaj Institute of Technology and Management, Greater Noida — 8.5 GPA*

### Intermediate (Class XII) 2019 – 2020

*Ingraham Institute, Aligarh — 91.0%*

### High School (Class X) 2017 – 2018

*Ingraham Institute, Aligarh — 93.0%*

## ACHIEVEMENTS

- Solved 370+ Data Structures & Algorithms problems on [LeetCode](#).
- Solved 270+ Data Structures & Algorithms problems on [GeeksforGeeks](#).
- Achieved 5-star rating on [HackerRank](#) in Java.
- Achieved 3-star rating on [HackerRank](#) in Problem Solving.
- Reached a maximum rating of 1139 on [CodeChef](#).

## CERTIFICATIONS

- [Java Certification](#) — HackerRank (awarded on passing the Java basics test).
- [Neuro Nest Hackathon](#) — Participation certificate, hackathon conducted by G.L. Bajaj Institute of Technology and Management, Greater Noida.
